

CAPABILITIES STATEMENT

COMPANY OVERVIEW

Delta Industries LLC is a woman-owned industrial metal fabrication and specialty metal supply company based in Ponchatoula, Louisiana. Established in 2024, the company provides high-quality industrial materials and fabrication services at competitive rates. With direct connections to U.S. manufacturers and wholesale suppliers, Delta Industries ensures rapid delivery and exceptional value for industrial and commercial construction projects across the Southeast region.

PAST PERFORMANCE & KEY CLIENTS

- **Cabot Expansion Project:** Led the fabrication, logistics, and installation of pipe support bridges and structural support systems in support of a major facility expansion. Scope of work included engineering coordination, fabrication oversight, field installation, and seamless integration with existing infrastructure to increase operational capacity. The project, valued at approximately \$30 million, was delivered on schedule through disciplined planning, strategic resource alignment, and close coordination with key partners and subcontractors. Execution focused on manpower optimization, minimized downtime, and strict adherence to safety, quality, and performance standards.
- **Air Products Expansion:** Performed emergency fabrication services for a time-critical expansion project, meeting accelerated delivery timelines while maintaining rigorous quality and performance requirements. Rapidly mobilized internal resources and leveraged multiple partner fabrication facilities, including in-house capabilities, to maximize production capacity and ensure uninterrupted execution under urgent operational demands.
- **Omega Steel Project:** Fabricated and delivered 1,000+ structural steel components utilizing partner fabrication facilities and third-party quality control. All materials were fabricated, inspected, galvanized, and number-marked in full compliance with specifications, then delivered on schedule through coordinated production planning and logistics management.

KEY CLIENTS

- Cajun Industries
- Continental Industrial Services
- Trade Construction

CORE COMPETENCIES

- **Industrial Metal Fabrication:** Expert fabrication of structural steel, pipe supports, and custom metal components.
- **Material Supply:** Direct wholesale access to specialty metals at significantly lower costs than industry averages.
- **Design & Modeling:** AutoCAD-based design and custom modeling for complex fabrication projects.
- **Custom Welding Services:** Skilled welding for structural and specialty applications.
- **Vendor Network Integration:** Coordinating logistics, rigging, and transportation for turnkey industrial projects.

NAICS CODES

236220 – Commercial and Institutional Building Construction

423510 – Metal Service Centers and Other Metal Merchant Wholesalers

332999 – All Other Miscellaneous Fabricated Metal Product Manufacturing

237990 – Other Heavy and Civil Engineering Construction

237310 – Highway, Street, and Bridge Construction

236210 – Industrial Building Construction

238990 – All Other Specialty Trade Contractors

238910 – Site Preparation Contractors

238120 – Structural Steel and Precast Concrete Contractors

DIFFERENTIATORS

- **Woman-Owned, Family-Oriented Business:** Leadership is directly involved in every sale and project to ensure quality and accountability.
- **Direct Supply Chain Access:** Unique relationships with U.S. manufacturers and wholesale steel suppliers provide unmatched cost savings.
- **Full-Service Vendor Network:** Capabilities span fabrication, transportation, rigging, high-volume pumps, and heavy/civil engineering support.
- **Rapid Response:** Proven ability to complete emergency and time-critical fabrication jobs efficiently.
